Our Great Land

In our Great Land, lo, every man
May live and grow by God's own plan;
Nor shall we heed tho' some far place
Saw the beginning of his race;
For our Great Land holds all we need—
No power can harm save man's own greed.

We're brothers all, from coast to coast,
This is our Nation's proudest boast;
So every man in this free land
Will pay his debt with heart and hand.
In love and service we unite
In honor fight for God and Right!

The Nation calls! the Flag's unfurled!
We stand before a waiting world;
It cries to us, a people free,
"Uphold the right on land and sea!"
Let every man who hears the cry
Stand forth and keep our colors high!

CHORUS

Come, North and South! Come East and West
Of Love and Labor give your best;
And let us all like brothers stand
To guard the honor of our land!
